House Committee Making Drive to Know Who Gives And How Much

WASHINGTON, Aug. 29.—(P)—The House Campaign Expenses committee today began a drive to uncover "slush funds" and find out who contributes how much to the campaigns of candidates in the November elections.

Labor and industry will be called before the group. Yesterday the committee quizzed Sidney Hillman, of the CIO's Political Action committee and drew from him a vigorous defense of charges that the PAC is "Communistic-engineered from the top down."

Rep. Church (R-Ill.) had made the charge. Hillman replied that Church was "trying to prejudice the public against us," and that he, Hillman, would put his record of fighting Communism against that of Church at any time.

"I'm opposed to Communism because I'm opposed to all totalitarianism—even in industry," Hillman asserted.

Hillman said the PAC is backing the Roosevelt-Truman ticket and seeks to elect a "progressive Congress." He emphasized however that it will not contribute funds to the Democratic National committee.

The PAC, he said, is non-partisan and might support a Republican in any given campaign. In fact, he said, the CIO in 1937 gave \$5,000 to support Gov. Thomas E. Dewey in his race for district attorney in New York.

**Hillman Will Report**

With the assurance from Hillman that he would give the committee regular reports on the PAC's drive to obtain \$5,000,000 from CIO members at a dollar each, the committee, headed by Rep. Anderson (D-Mn.) announced that officials of the National Association of Manufacturers would be questioned at its next meeting, the date for which has not been set. The House group is merely seeking information, Anderson emphasized, explaining that there have been no complaints about the NAM it.

## L. H. Archias, Prominent Sedalian, Dies

Had Been in Seed Business in This City Since 1899

Leon Henry Archias, 75 years old, one of Sedalia's best known and outstanding business men, whose home was at 1213 West Fourth street, died Monday night at 11 o'clock at the Bothwell hospital. He was taken there last Thursday afternoon after suddenly becoming ill at the Missouri Pacific railway station. Mr. Archias had been in failing health for several months.

Mr. Archias was born in Helena, Ark., on February 12, 1869, the son of the late Leon Joseph and Margaret Anna Wellauer. His father was born in Donzere, in southern France, grew to manhood in his native land and came to America in 1853, going to Helena, Ark., where he engaged in the seed business. Mr. Archias came from a long line of botanists in France.

He was first associated in the seed business with his father. For a time he and his brother, Louis E. Archias, now deceased, owned and operated stores in Fayetteville, Ark., and Carthage, Mo. He came to Sedalia from Carthage in 1899 and has been in the seed business here since that time. For a number of years his son, Leon H. Archias, Jr., has been associated in business with him. While at the head of the seed business he acquired the Gelven greenhouses in 1910 and since that time has enlarged the floral business at Fourth street and Park avenue until it is one of the largest floral institutions in this part of the state.

## Grover Dalton Writes to McKittrick

Answers Senatorial Candidate's Remarks Made Last Week

POPULAR BLUFF, Mo., Aug. 29.—(P)—Addressing an open letter to Attorney General Roy McKittrick, Democratic senatorial candidate, as "Dear Hotspur" Grover W. Dalton, chairman of the Republican state committee today said "There is probably no greater living authority on the role of Charley McCarthy than yourself."

His reference followed McKittrick's assertion last week that Dalton is Barak T. Mattingly's "Charley McCarthy."

"I have never crawled with hat in hand to 1908 Main street, Kansas City, and waited with bated breath for the blessings of Uncle Tom," Dalton wrote. He declared Mattingly "is one of the many young men I brought into headquarters to help me. His leadership is outstanding."

He told McKittrick his campaign "reminds me that you have deserted your creator, Uncle Tom, and that you are now ensconced on the lap of the 'great voice.' As one taxpayer to another, wouldn't it be a boon to the taxpayers if the proxy system could be substituted when a McCarthy aspires to a remunerative office? Think what could be saved in the case of Harry Truman and his wife if the people of Missouri had just sent Roosevelt a proxy."

**"A Little Feudin'"**

Admitting that Mattingly and Charles Ferguson, unsuccessful Republican gubernatorial candidate, "have been doing a little feudin'" Dalton explained that "We are all of hillbilly origin. Feudin' just comes natural to us. It's sort of an age proposition. . . . But don't let it deceive you or encourage false hopes. . . . You shall be reminded of your Pendergast origin until it becomes a stench in your nostrils. . . . Verily, Hotspur, thou strainest at gnats and swallowest whole herds of camels."

**Refers to Ghost Votes**

Dalton told McKittrick his introduction into state politics as well as that of Senator Truman, was "as Pendergast McCarthys." "It is a matter of record," he said, "without Pendergast's aid and the 60,000 ghost votes in Jackson county and similar numbers in St. Louis, your self-confessed attributes and virtues would have remained concealed under the proverbial bushel. You would still be city attorney of Salisbury, cautioning speeders and warning the owners of poultry to buy fence wire. I was chairman of the Republican state committee at that time."

## Stolen Radio Is Located

LONNIE A. Engles, 30, ex-convict, arrested and charged with entering the Henderson Insurance Agency at 122 West Third street, waived his preliminary hearing before ex-officio Justice of the Peace C. W. Bente on a charge of burglary and larceny and was bound over to the action of the October term of criminal court.

Engles was lodged in the county jail in default of a \$2,000 bond. He is accused of breaking into the insurance agency and stealing a small table model radio.

The radio which was reported to the police as having been left in the street at Seventh street and Lamine avenue, was reported as found by Clyde Litz, 221 East Twenty-sixth street and Arthur Ford, 412 East Twenty-seventh street. They reported to the police Monday night the radio was found in an alley between Sixth and Seventh, just off Missouri avenue.

They turned the radio over to Officers John Neitzert and William Smith, who took it back to the insurance agency.

## Japs Claim They Drove U.S. Troops Out

LONDON, Aug. 29.—(P)—Berlin broadcast a Tokyo dispatch today asserting that American troops were repulsed in a landing attempt near Cape Torokina on Bougainville in the Solomon Islands.

American troops have been on Bougainville for a year or more, but strong pockets of isolated Japanese troops still are on the jungle girt equatorial island.

The dispatch said that the Americans landed Aug. 10 six miles east of Torokina on the left bank of the Jaba river but that the Japanese counterattacked nine days later and cleared the beachhead Aug. 20 after heavy fighting.

**Yanks Will Parade**

LONDON, Aug. 29.—(P)—American troops will parade down the Champs Elysees this afternoon before high French and Allied military officials, the Paris radio said today.

As a token of French homage to the American army, Gen. Charles De Gaulle will review the march, which will begin at 2 p. m. (7 a. m. CWT), the broadcast said.

## New Diesels For Freights

ST. LOUIS, Aug. 29.—(P)—The Missouri Pacific lines obtained authority from Federal Judge Richard M. Duncan today to spend \$5,271,500 for two new Diesel freight engines, five Diesel switching engines and 1,000 boxcars.

Three hundred of the boxcars will be allotted to the St. Louis, Brownsville and Mexico railway and 200 to the International-Great Northern, both subsidiaries of the Missouri Pacific.

The railroad's petition said the new engines, permitting movement of freight on an accelerated schedule, would result in annual savings of \$212,000.

Judge Duncan also authorized the Missouri Pacific to spend \$94,950 to improve loading stations for fruits and vegetables at Russelltown, Mission, San Juan, Raymondville and Carrizo Springs, Tex., in the Rio Grande valley.

## Gen. Wm. Old Heads 1st TCC

The War Department has announced the appointment of Brig. Gen. William D. Old, with more than 90 combat missions to his credit, as commanding general of the First Troop Carrier Command Army Air Forces, which has its headquarters at Stout Field, Indianapolis, Ind. Gen. Old succeeds Brig. Gen. Frederick W. Evans, chief of the command since October 4, 1943, who has been given an undisclosed assignment.

The new commanding general returned last June from the China-Burma-India theater where he was commander of the provisional Troop Carrier Command which distinguished itself in the aerial penetration of Burma in the spring of 1944. Regarded as one of the most skillful pilots in the theater, Gen. Old led many flights personally.

Born November 21, 1901, he is 42 years old.

## Nazis Report Fall of Paris

LONDON, Aug. 29.—(P)—Germany announced officially today the fall of Paris, four days after the fact, asserting in a communiqué that Nazi strongpoints in the French capital "succumbed to enemy superiority."

The communiqué said the bulk of Nazi troops had withdrawn to the north bank of the lower Seine. The enemy said the Allies had swung northward on a broad front of Paris, seeking to advance across the Chateau Thierry-Chalons line. Heavy fighting developed along the Marne, Berlin said.

A further retreat northward along the Rhone Valley was announced, although the Germans said their Marseille garrison still was resisting in that greatest of French ports.

## Warrensburg Musician Dies

DON ESSIG of Warrensburg died Monday morning in Research hospital in Kansas City where he had undergone an operation.

He is survived by his wife and son, J. L. Essig of Warrensburg, and two other sons, Don Essig, Jr., Louisiana, Mo., and Sgt. F. R. Essig, who is stationed at Chanute Field, Ill.

Burial will be in Plattsburg. Mr. Essig had been a resident of Warrensburg for many years and was teacher of band and orchestra in the public schools and at the college. He was widely known for his vast collection of rare musical instruments, many of which were hundreds of years old.

## Wounded, Has Purple Heart

The Purple Heart has been awarded T/5 Freddie Taylor, who was wounded in France on June 30, while serving with the field artillery of the U. S. army. He is the son of Mrs. Laura Taylor of Nelson, Mo., and received the Purple Heart Saturday.

T/5 Taylor entered service two years ago last June, has been overseas since March of this year. He is now in a hospital in England and has written his mother that he is getting along fine and is receiving the best care possible.

Mrs. Taylor has another son in service. He is Cpl. Lan W. Taylor, who is stationed somewhere in the south Pacific.

**Two of "Quads" Die**

GAINESVILLE, Ga., Aug. 29.—(P)—A second quadruplet son of Mr. and Mrs. Charles E. Lee died today at Hall County Memorial hospital.

The infant was the third-born of four boys, born prematurely Sunday night to the 23-year-old wife of a farmer now serving in the army. The first-born, weighing 2 pounds 14 ounces, died last night.

# Yanks Take Chateau-Thierry; Batter Nazis In Rhone Trap

Allies Supplying Food, Medicine To French Natives In Southern France

By George Tucker

ROME, Aug. 29.—(P)—French troops of the Seventh Army, in sweeps well west of the Rhone in southern France, reached Uzès and drove through Nîmes today, forming a solid southern buffer to help wipe out the battered German 19th Army already cut off by an American surprise thrust to river far to the north.

From Nîmes, a city of 93,758 population 14 miles beyond the Rhone, one French column turned southwest along the coast in a drive toward the French-Spanish border.

Other French columns extending west and northwest of Avignon for at least 24 miles to the Uzès area won control of a triangular region north of which the fleeing Germans are being pressed against the Americans just above Montelimar, some 45 miles from Avignon.

The flying column under the command of Brig. Gen. Frederic Butler which reached the Montelimar area Friday, after inflicting wholesale punishment on at least one force of 15,000 German troops, killing many and possibly knocking out the remainder, continued to spread out through the entire region.

**Wrecked Equipment**

Reports from there said roads were strewn with destroyed German transport and other vehicles.

American forces on the eastern coastal flank late yesterday drove into Cagnes, 10 miles northeast of Cannes, and Venice, five miles inland due north of Cagnes—advances which placed them five miles from Nice and only 20 miles from the Italian frontier.

Thousands of German troops fell into Allied hands with the surrender of the final holdout enemy resistance in Marseille. Their full liberation of Marseille and Toulon gives the Allies adequate port facilities for any operations necessary.

**Surrender of Forts on the St. Mandrier peninsula in the Toulon area brought an end to fighting in the coastal area.**

**Surrender Garrison**

The surrender of the St. Mandrier garrison came after the enemy coastal batteries were heavily bombarded by French, British and American naval vessels—including the French battleship Lorraine and the British battleship Ramillies.

Other elements of the fleet penetrated into the Gulf of Genoa, sinking one enemy vessel and possibly sinking another.

Even while the last sporadic bursts of fire were sweeping the streets of the southern France ports, Allied-supplied food, drugs and medicinal supplies were being hurried into the area and distributed among the French natives.

The first shipments contained flour. Meat and sugar followed.

## Play Ball or Be Let Out

WASHINGTON, Aug. 29.—(P)—Confronted by the angry resignation of another top-ranking administrator, big, rosy cheeked Julius A. Krug waded into dissension torn War Production Board ranks today with threats of dismissal for "trouble makers."

The 37-year-old ex-navy lieutenant commander back home from an overseas assignment of simplicity compared with that handed him by President Roosevelt as the aftermath of the latest home front flare-up, declared there will be but "one team at the WPB from now on."

Anyone who doesn't play ball, he said, will be let out.

Krug outlined his new policy to the senate war investigating committee even as Sidney J. Weinberg was resigning downtown as WPB vice chairman in charge of special problems with a blast at "demagogic intrigues" within the organization.

Weinberg's stepping out followed a whirlwind series of developments starting with President Roosevelt's assignment of WPB Chairman Donald M. Nelson on a confidential mission to China.

While congressmen were asking why Nelson was being sent out of the country at a time when he was winning a battle with the military to get limited civilian labor areas started in non-critical labor areas, executive vice chairman Charles E. Wilson quit cold. He blamed members of Nelson's staff for spreading what he described as false rumors that he was opposed to civilian output.

## TODAY ON THE War Fronts

LONDON, Aug. 29.—(P)—Sweeping over northern France throughout the night, British Mosquito bombers blasted enemy rail and road transport from the mouth of the Seine to the German border in continuation of the Allies' round the clock campaign to halt all movement between the Reich and the western front.

**SUPREME HEADQUARTERS, Allied Expeditionary Force, Aug. 29.—(P)—**The last Nazi resistance has been crushed in the Paris area. The U. S. Fifth Army corps has captured the great Le Bourget airfield where Lindbergh landed and the suburb of Montmorency where the Germans made a last stand.

LONDON, Aug. 29.—(P)—Declaring that Germans are showing increasing interest in the war in the Pacific, the Nazi Transocean propaganda agency said today in a Berlin broadcast that the Deutsche Allgemeine Zeitung has started a daily review of military events in the Far East.

"Today's issue describes Roosevelt's trip to the Pacific as a preliminary to an Allied assault upon the coast of China and the Philippines," the broadcast said. "One may also deduct from Roosevelt's report the Russians will be asked to become more active in the Pacific."

HEADQUARTERS, U. S. 15th Air Force, Italy, Aug. 29.—(P)—Pilots scouting the Balkans reported evidence today that the Germans had succeeded in regrouping a sizeable force in the path of the Russian advance through the Galati gap upon the Romanian capital of Bucharest.

They saw no sign of large-scale German evacuation from the surrendered kingdom into Hungary or Yugoslavia.

**Sends Laundry To Africa**

BOSTON, Aug. 29.—(P)—A 2,400 mile airborne laundry service flow enables residents of mid-Atlantic islands to obtain clean shirts in less than a week.

The idea is Richard J. O'Connor's—an idea developed when he was sent to Africa as a representative of a commercial airline.

The "O'Connor Consolidated Laundry Service, Ltd.," picks up soiled shirts, socks or whatever on American Airlines ships on Monday and when the planes arrive in Africa O'Connor takes the bundles in a command car to a laundry.

Promptly on Friday mornings the starched and ironed garments are returned to the planes and a few hours later delivered back to the islands.

## Russians Near Bucharest

Hungarian, Nazi Troops Massing in Transylvania

By Eddy Gilmore

MOSCOW, Aug. 29.—(P)—Swift Russian drives through Romania approached the great oil center of Ploesti and Bucharest today as one army poured across a 75-mile stretch on the Danube and another knifed 15 miles into Hungarian-held Transylvania.

Hungarian and German troops were reported massing in Transylvania, the 16,642 square mile section of Romania which Hitler gave to Hungary in 1940. The sudden Russian push through pines in the Carpathians gave the Red army the good base town of Bretscu on a railroad and highway.

(The German radio said the Russian hands and troops which 40 miles northeast of Ploesti and 60 miles from Bucharest. Buzau is a rail and road junction 60 miles west of Braila, the large Danube port which the Russians captured last night.)

The entire Danube delta was in Russian hands as droptroops which crossed the Danube on a wide front were racing for the Black sea port of Constanta and the roads leading to Bucharest from the east and northeast.

**New Ships on Danube**  
The Russians captured a large flotilla on the Danube and each hour new ships were arriving on the Danube and Black sea coast behind Russian lines, flying the red flag.

Already the Ploesti oil field derricks, north of the city, were in sight of Russian troops. Cossacks, tanks and motorized infantry on the plains before the Romanian capital ranged close to the city of 650,000, feeling out German resistance.

Moscow speculated that Soviet forces would reach Bucharest by tomorrow. Latest reports placed tank-led spearheads less than 50 miles away.

**Turn Down Request For New Registration**  
ST. LOUIS, Aug. 29.—(P)—The Board of Election Commissioners turned down today a request of the CIO Political Action Committee for another city-wide registration for new voters.

Such a special registration, was held in each precinct prior to the August primary.

Are Now Within Scant Hundred Miles From the German Frontier

CHATEAU-THIERRY IN FRANCE, Aug. 29.—(P)—American troops fighting over the rolling green battlefields where Doughboys and Marines immortalized themselves in Nineteen-Eighteen, occupied Chateau-Thierry and Belleau Wood in a smash which swept across the valley of the Marne to the approaches of Reims today.

By James M. Long

**SUPREME HEADQUARTERS, Allied Expeditionary Force, Aug. 29.—(P)—**Swiftly advancing American troops captured historic Chateau-Thierry and Soissons today in whirlwind advances which carried them over French soil hallowed by their fathers' blood to within 55 miles of Belgium and a scant hundred from the German frontier.

Fighting on ground where the men of 1918 routed the Germans in the second battle of the Marne, the GIs of 1944 swept through Chateau-Thierry and raced northward 25 miles into Soissons in a thrust which was rapidly flanking the whole Pas De Calais department where the Germans launch their robot bombs. A new and more deadly trap might be forming around the remnants of the German Seventh Army, broken in Normandy, and the 15th Army, in Pas De Calais.

At Soissons, where the old First and Second divisions helped their allies win one of the closing battles of the last war, the Americans were 55 miles northeast of Paris.

Parallel columns driving north reached the Fismes area 16 miles east of Soissons and reached the upper Marne at two places between Chalons and Vitry.

**Near Verdun**  
Troops were less than 50 miles from Verdun where a younger Marshal Pétain near the start of the last war turned the Germans back with resistance coagulated in the slogan: "They shall not pass."

The Americans and British bridgeheads on the Seine north-west of Paris were welded into a solid front of 25 to 30 miles where the troops which crossed at Mantel and Vernon joined hands. The assault front pushed 11 miles north of the Seine almost to the Rouen-Paris highway.

Canadians advanced within sight of Rouen, where Joan of Arc was tried and burned. The nearest Canucks were four and a half miles away.

**Racing Toward Ardennes Route**  
American armor, racing toward the Ardennes invasion route to Germany and flanking the Nazis' rocket bomb coast positions, surged across the Marne river at two places today, pushing to the outskirts of Chateau-Thierry and closing the German escape gap across northern France to 76 miles.

One spearhead plunged 18 miles northeast of Meaux to Cuvergnon. These U. S. Third Army units were within 10 miles of the Forest of Compiègne where the first world war armistice was signed and where Adolf Hitler forced his terms on France in 1940. The strategic Aisne river was 16 miles north of this American force.

The second breaching of the Marne occurred 10 miles east of Meaux. Crossing on bridges captured at La Ferte-Sous-Jouarre that force continued driving upstream and its advance elements were reported to have reached Chateau-Thierry, 13 miles away, where American troops won a historic victory on June 21, 1918.

He was active in the founding of the Florist's Telegraph Delivery association and was the association representative in the district during the association's early years.

## Are Now Within Scant Hundred Miles from the German Frontier

(Continued From Page One)

Paris and a little over 50 miles from the frontier of the stolen French province of Lorraine which the Germans claimed as the boundary of the greater Reich.

Slashing toward the Belgian border 76 miles away, the American units which reached Cuvigneron were 20 miles from Soissons and Compiègne. The Aisne river which flows between the two cities links with the Somme into the last river defensive chain in northern France. A breach of the Aisne would flank any stand of the Somme to save the already menaced flying bomb belt.

**Take Robot Bases**

Between Paris and the sea—where the Allies already were reported seizing more of the southernmost of the German flying bomb bases with each day's advance—the Canadians pushed over two bridgeheads; to within a few miles of the German stronghold of Rouen on the back road to Dieppe.

Three other British and American bridgeheads were deepened three to five miles north of the Seine toward Beauvais.

One front line report said that at least 14 robot bomb sites had been found in the mopped up area just south of the Seine, with increasing numbers ahead every mile of the thrust from the north banks.

What other groups will be asked to testify before the House committee has not been decided although Hillman, during his testimony, urged the congressmen to extend their hearings to several groups.

Hillman told the committee the PAC has spent \$371,086 in the current campaign. Only \$17,000 has been received in the drive for \$5,000,000, he said, but the PAC would consider "quite satisfactory" contributions of one dollar each from 2,000,000 CIO members.

# HAY FEVER SUFFERERS

Read About Results of Recent Scientific Investigation

People who suffer from hay fever may have a brand new way to seek comfort this year

Several scientific authorities have found that in some cases large doses of vitamin C have relieved the symptoms of hay fever.

YES, there is scientific evidence that, in some cases, vitamin C relieved the symptoms of hay fever. Now mind you—this is not "guaranteed relief". It's all new—brand new! The test evidence is as yet far from conclusive. But it is sufficiently favorable to indicate that anyone suffering from hay fever should give vitamin C a trial.

Now available to You

And now you can! There is a new vitamin tablet just out that was developed for hay fever sufferers. It's Pierce's Special Vitamin Formula. Taken as directed, it provides the amounts of vitamin C these scientists used in their successful experiments.

B-Factors, Too!

In addition, Pierce's Special Vitamin Formula pro-

vides the important factors of the vitamin B-Complex. Factors that have to do with sound nerves, good digestion and good appetite.

Don't Wait!

If you suffer from hay fever, don't let another day pass till you give these tablets a chance to help you. Give them a trial at least. You're everything to gain! Get Pierce's Special Vitamin Formula (in the blue box) at your druggist's today!

**PIERCE'S SPECIAL VITAMIN FORMULA**

Vitamin C in the doses recommended by the scientists is now available in a new tablet called Pierce's Special Vitamin Formula.

# Pitchers are Contenders Troubles Now

## American League's 'Big Four' Looking For Anything Good

By Jack Hand  
Associated Press Sports Writer

World series talk was legitimate business in four American league clubhouses today after a routine post-season planning session in Commissioner K. M. Landis' office but the four contenders were more interested in vacuum cleaning the bushes, looking for another starting pitcher.

If there was a footloose hurler in the minors who could win in the big show, operators of the St. Louis Browns, Boston Red Sox, New York Yankees and Detroit Tigers would be very much interested.

Experiments were the rule, rather than the exception, as the clubs battled into the final five weeks of the season with only four games separating the Yanks and Tigers, tied for third, from the pace-setting Browns.

Boston tried Rex Cecil from San Diego with so-so success, two won and two lost, and was ready to gamble again today on Clem Dreisewerd, acquired from Sacramento at a fancy price tag. Dreisewerd's first opponent was to be Floyd (Bill) Bevens, whom the Yanks had just pulled back from their Newark farm where he had won 10 in a row.

St. Louis went down to the Southern Association and back several years to pick up Willis Hudlin, the former Cleveland Indian with his famous "sinker." Detroit still looked high and low for help to bolster Hal Newhouse and Dizzy Trout, the 21-win twins, despite Stubby Overmire's sudden flash of form over the weekend.

Pitching promises to be the decisive factor in the stretch drive when the Browns and Tigers will enjoy long home stands. The St. Louis team, idle yesterday, moved to Cleveland for two games before heading home to tackle Detroit in another vital series but heard bad news from the club doctor who said Bob Muncie would be lost for a week or 10 days with a sore arm.

Boston took over second place by clubbing the Yanks, 7-4, in the only game in the Harbridge loop yesterday. Red Barrett, who relieved Yank Terry in the fourth, picked up his 8th win at Bill Zuber's expense. The Red Sox pitchers walked 13 men but left 14 New Yorkers stranded in a 6-hit effort.

The St. Louis Cardinals, who have nothing more serious to do than get ready for the opening of the series at Sportsman's park, Wednesday, Oct. 4, came up with three runs in the last of the ninth to shade Cincinnati, 3-2. Mort Cooper notched his 100th big league triumph and 19th of the year with the help of Ken O'Dea's two-run pinch homer. Harry Gumbert was the Cincy loser.

Pittsburgh at Chicago, the only other scheduled game, was washed out.

First Biography of America's Great General

"WE COME AS FRIENDS . . ."

XVI

AT the end of October, a story was "planted" in the newspapers to the effect that General Eisenhower had been recalled to the United States for a series of discussions. This rumor accounted for his absence, an absence later explained by the fact that the general went to Gibraltar. He was given command of the fortress.

"Never in my wildest dreams in my West Point days," he said, "did I ever think that I—an American general—would ever command the British fortress of Gibraltar."

His headquarters were under 1400 feet of solid rock and constituted 40 rooms. The only exercise the general and his staff was able to get consisted of running to their offices through a dripping tunnel. Many a private was startled at the sight of his commander and his staff sprinting through the narrow passageway.

To outwit Hitler and divert German attention, General Eisenhower had ordered that units of American forces be outfitted for the Arctic. The Eisenhower strategy worked perfectly. The Germans were reported to be bolstering their defenses in Norway.

All through the night of Nov. 7, General Eisenhower worked in his cavern headquarters. Great events were impending; great chances were being taken. The die was being cast. In his hand he held a decoded message. It was from General Marshall, back in Washington, and read:

"You and your command sailed with the hopes and prayers of America. For months you have planned, trained, and conditioned yourselves for the great task ahead. Godspeed to your success. I have complete confidence in your leadership and in the aggressive fighting quality of your troops."

## Sports Roundup

By Hugh Fullerton, Jr.

NEW YORK, Aug. 29.—(AP)—

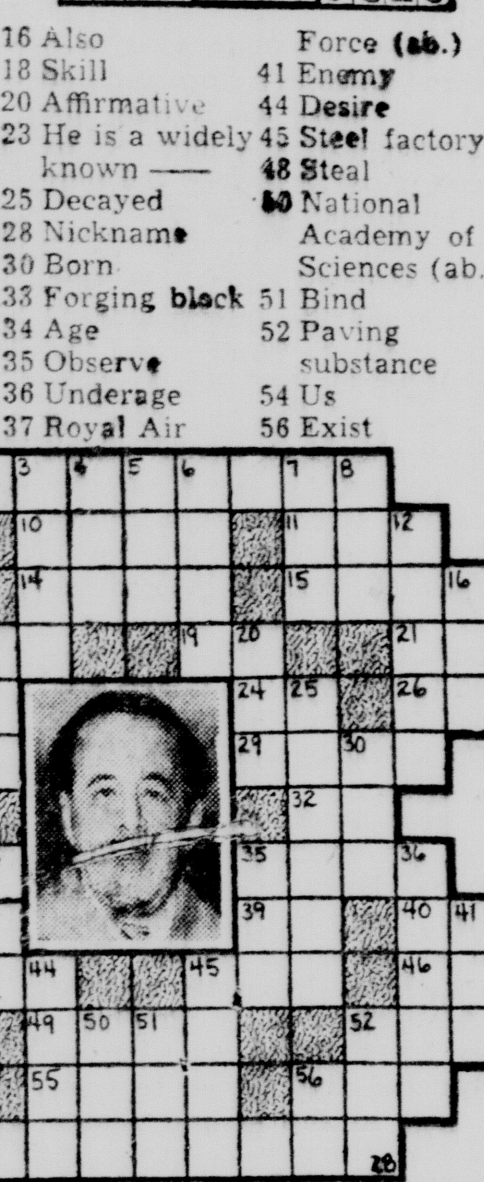

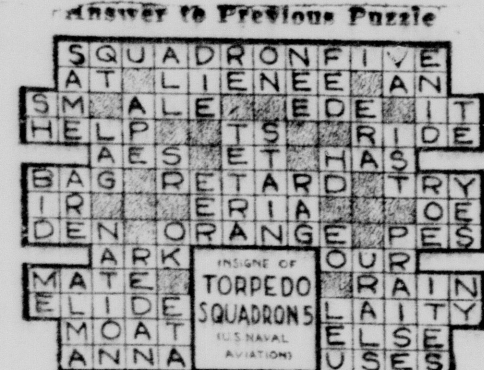

The recently-revised discussion of whether match play provides a true test of golfing ability, leaves this corner cold. . . . The argument against match play is that a player can blow a couple of holes with 7's or 8's and still win. . . . But in a 72-hole medal tournament, the guy who ruins a round that way still has three chances to make it up, so what's the difference. . . . After expending a lot of thought on a scoring system that would give credit both for match-play victories and medal scores, we found no way of making allowances for the ability to win when the chips are down, and its human fallibility that makes golf interesting. . . . any good mechanic could devise a machine that would shoot better than Byron Nelson, but no one would put up \$10,000 prize money for it to win.

### He'll Whistle For It

Bill Hells, who takes his money out of oil and puts it into horses, has made such a peep of his \$66,000 colt, Pericles, that the horse follows him around Rancocas, and responds eagerly when Hells whistles. . . . When Bill was showing off the horse's tricks to a group of visiting newspapermen the other day, one scribe wisecracked: "If he ever wants to win a race, he'll have to stand at the finish line and whistle."

### One-Minute Sports Page

Blake Harper, concessions manager at Sportsman's park, is moaning about the prospective shortage of pop corn for the world series. . . . What could be worse is an over-supply of pop flies. . . . Tip: The navy grid squad is so strong that Ralph Ellsworth, a regular at Texas U. last season, isn't working with either of the first two backfields.

### May in August

Before he started holding those Tam O'Shanter golf tournaments, George S. May hired a crew of researchers who looked at weather records for 20 years and picked mid-July dates as the best for golf. . . . As long as he stuck to those dates, the weather was fine, but this year George had to switch to uninvestigated August and ran into a rainstorm on the big day of the tournament.

A recent change in navy regulations should help the pre-flight schools during their early grid games. It says that future pilots, after completing their courses, will be pooled at the pre-flights instead of at primary stations. . . . Sgt. Dave Rowe, who followed the Kearns Field, Utah, Eagles to

# Byron Nelson Heads South With the Title

## Wins \$13,462.50 in War Bonds in the All American Open

By L. E. Kelley

CHICAGO, Aug. 29.—(AP)—Lord Byron Nelson, the big money man of golf, headed south today to pick up more links gold.

The tall Texan who said he played "just as well as I could have possibly played" to win \$13,462.50 in war bonds in the all-American Open yesterday, departed today for Nashville, Tenn., where he will compete in the \$10,000 Invitational Open Sept. 1-4.

In chalking up his third win since George S. May inaugurated his all-American golf show in 1941, Nelson posted a 180 score for the 72-hole route, finishing with a 3-under-par 69 to discourage challengers who believed they had a chance after the champion turned in a third round 73.

Ed Dudley, president of the PGA came from far back in the pack to get a final round 69 good for a 285 total and second place. The husky PGA prexy was a stroke ahead of Pvt. Buck White, who lost a title playoff a year ago to Harold (Jug) McSpaden. McSpaden, who won the 1943 championship with 282, dropped to ninth place with a 76 for 289.

Although the Open and Women championships were decided yesterday, three amateurs—Ed Furgol of Detroit, Ken Heilemann, the St. Louis chemist, and Ed Christensen, the golfing detective from Miami, Fla.—were involved in an 18-hole playoff today for the si-mon-pure title. They were dead-

locked at 72 holes with 295 totals. Little Betty Hicks of Long Beach, Calif., won the women's 72-hole championship with a 318 total, a bare stroke in front of Dorothy Germain of Philadelphia.

The Farm Security Administration was also approved and soil saving methods were urged forcibly and protection from floods through dams and levees along main rivers were stressed.  
The part of farm boys in the war was praised and attention was called to their supplying their share for the armed services and fully sharing in the nation's honors. Objection was voiced to "making agriculture a dumping ground for boys from the city unskilled in the ways of life on the farm."  
Opposition was urged to the proposed unicameral, or one house, legislature proposed.  
Necessity of congress making available through existing trade channels, including cooperatives, some of the fifteen billion dollars worth of machinery and supplies to be made idle at the end of the war to go to agriculture.  
The board also voted to affiliate with the National Council of Farmer Cooperatives an organization of leading farm groups over the United States. The National Cooperative is considered one of the big four farm organizations.

**PIN-WORMS Now can be Beaten!**

The miseries of Pin-Worms have been known for centuries and many doctors have sought a way to deal with this dreadful pest that lives and grows inside the human body.

Today, thanks to an important scientific discovery, a new and highly effective treatment is being hailed by medical authorities. It is based on a remarkable drug known as gentian violet. This drug is the vital element in P-W, the new Pin-Worm tablet developed by the laboratories of Dr. D. D. Jayne & Son, America's leading specialists in worm medicines.

P-W makes it unnecessary for you or your child to suffer in silence with the embarrassing rectal itch caused by Pin-Worms, or to take chances on the real distress they often create. The small, easy-to-take P-W tablets act in a special way to destroy Pin-Worms.

So watch for possible warning signs such as: itching seat and nose, uneasy stomach, bed-wetting, nervous fidgeting. If you suspect Pin-Worms, ask your druggist for a package of P-W and follow the simple di-  
rections carefully.

It is easy to remember: P-W for Pin-Worms!

**Looking Backward**  
Forty Years Ago  
by Drew Pearson

WASHINGTON, Aug. 29.—It has been exactly one year this week since Cordell Hull demanded the ousting of his undersecretary of state Sumner Welles. It is a long way between Washington, D. C., and Rio de Janeiro, Brazil, but events in Rio now make it possible to reveal the first break in the nasty row between Hull and Welles.

These events go to the root of our entire Good Neighbor policy and shed penetrating light on our present row with Argentina.

Last week in Rio, Foreign Minister Oswaldo Aranha, greatest Latin American friend of the USA resigned. He had been Ambassa-  
dor in Washington, studied Ameri-  
can politics, toured the USA from coast to coast, emphatically believ-  
ing that Brazil's destiny must go hand in hand with that of the United States.

He was virtually forced out by the fascist clique in the Brazilian army which wants to get together with the pro-Nazi clique in the Argentine army. President Vargas, supposed friend of the USA was not strong enough to override the army. He let them get away with closing up the Society of Friends of the United States just as Foreign Minister Aranha, vice chair-  
man of the organization, was about to make a speech before it. U. S. Ambassador Jefferson Caffery was honorary chairman.

Closing the pro-American soci-  
ety was a cold-blooded, calculated slap at Aranha's pro-American policy and the state department is now minus its best supporter in all South America.

Two and a half years before, Sumner Welles faced almost the same problem with the Brazilian army, and it led to his downfall, too.

Welles was in Rio de Janeiro as U. S. delegate to the conference of American foreign ministers to line up a solid front against the Axis. He urged Argentina to break with the Axis, but that govern-  
ment refused.

And the Brazilian army secretly supported Argentina. Brazilian officers had been trained in Ger-  
many, invited to Germany for mili-  
tary maneuvers — some of them even subsidized by German funds. So when Welles urged Foreign Minister Aranha and President Vargas that Brazil break with Ar-  
gentina if the latter would not break with the Axis, they made it clear that this was impossible. The Brazilian army was too pre-fas-  
cist and too strong.

So Welles took the best deal he could get. All nations except Ar-  
gentina and Chile broke with the Axis, but those two joined in con-  
demning the Axis.

**Dressed Down by Hull**

That night, when Secretary Hull heard the news in Washington, he hit the ceiling. Summoning Assistant Secretary Adolf Berle and Latin American adviser Laurence Duggan to his hotel suite, he put in a phone call to Welles in Rio.

And with Welles' two subordi-  
nates listening in, he gave Welles the most profane tongue-lashing they had ever heard. He talked to his undersecretary of state as no Tennessee mountaineer ever talks to his dog, berating him for failing to whip Argentina into line.

Welles took the dressing-down in silence. When Hull hung up, Welles called the White House, found FDR still awake and told him what had happened. The pre-  
sident sided with Welles for failing to whip Argentina and for going over his head to the president.

From the minute Welles got back to Washington, the swords were drawn and Hull began working to cause the ousting of his undersec-  
retary.

Note — Since then, Mr. Hull himself has not had much luck with Argentina and last week the Brazilian army caused the ousting of U. S. best friend Aranha because he was supporting Hull's policy of no-Argentine recognition.

**Beer Is Stolen From A Truck**

noon.  
Men were unloading a railway car behind Spencer's store and had parked the truck containing the beer in front of the store while they continued to unload the beer from the railway car.

**Christmas Packages Going Over**

NEW YORK, Aug. 29.—(P)—The army will start sending 90,000,000 Christmas packages overseas next week upon the completion of a huge new postoffice on the site of the former Madison Square Gar-

S/Sgt. and Mrs. E. P. Hen-  
dricks and daughter, Mary Ann, of Wichita Falls, Tex., arrived the first of the week for a visit in the home of Mr. and Mrs. Charles Jurries of Smithton. Miss Melrose Jurries of St. Louis also spent the week end with her par-  
ents.

**Lure of Washington "Society"**

Overton didn't fall for the idea. He had his heart set on being gov-  
ernor. Not even his brother Judge Winston Overton, whom Huey called in to bolster the argument, could sway him.

Finally, Col. Bob Brothers, who participated in the conference, called Huey aside and whispered in his ear. The Kingfish then came back with this new line of persuasion:

"Listen, John, you can't afford to be selfish in this. Remember you've got a wife and three daugh-  
ters to think about. Down here in Baton Rouge, they aren't going to meet the big people and you're just going to work yourself to death. But up in Washington, you can bring your daughters out in the finest society in the world."

"There'll be diplomats and am-  
bassadors and noble lords and ladies from all those foreign coun-  
tries. Your wife and daughters can meet the finest people in the world. You don't want them to be sitting down here in the bayou country when they can be mixing in with all those people, do you?"

"Talk to Ruth about it first and then let me know," concluded Huey.

Overton did and came to Wash-  
ington.

Since then, his daughters not only have enjoyed Washington so-  
ciety, but one of them, Ruth D., has been on the government pay-  
roll for the juicy salary of \$4,500 a year as clerk of her father's Manufacturers Committee. Another daughter, Katharine, for a long time was clerk in her father's office at a salary of \$2,400.
